

Innovative Management Concepts (IMC) and the members of our [GSA Veterans Technology Services \(VETS\) Governmentwide Acquisition Contract \(GWAC\)](#) Team are very pleased to be part of the GSA VETS GWAC program. IMC is a prime contractor for the GWAC in both Functional Area 1 – Systems Operations and Maintenance and Functional Area 2 – Information Systems Engineering.

If you choose to use the GSA VETS GWAC you can be assured that a very experienced and competent team of Service-Disabled Veteran-Owned (SDVO), Veteran-Owned, and other Small Businesses will compete to perform the effort professionally and successfully. Plus, if you choose to use the GSA VETS GWAC, more than 50% of the effort will be performed by an SDVO and more than 50% of the contract funds will go to one or more SDVO small businesses. IMC has other small and large businesses on the team to provide depth and a broader range of capabilities.

The IMC GSA VETS GWAC Team is now successfully performing on six GSA VETS GWAC task orders for the Army (Quartermaster Center & School Automation/Administration Support and the National Ground Intelligence Center's Technology Watch Tool Program), Defense Security Cooperation Agency, the Department of Veterans Affairs (Austin Information Technology Center and the Office of Information & Technology), and GSA's Heartland Region.

The first step in using the GSA VETS GWAC is to contact the GSA at vetsgwac@gsa.gov or by calling the Small Business GWAC Center toll free at 1-877- 327-8732. The VETS GWAC Center will provide Scope Determinations and Delegation of Authority Training for Government Contracting Officers and their organizations.

If you have questions about IMC's GSA VETS GWAC Team or IMC capabilities please contact me at:

703-318-8044 x210 or via email at mmetz@imcva.com.
