| Job Description | | | |

The financial analyst is responsible performing financial analysis of the task order including cost control, reporting, and assisting with Total Cost of Ownership (TCO) reduction. They will assist with continuous improvement initiatives from a cost management perspective working with the service efficiency manager and the project manager.

Responsibilities:

- Monitor financial analytics and metrics results.
- Support collection of performance metrics and report results.
- Implement new data analysis methodologies.
- Review customer files to ensure integrity of data collection and use.
- Perform data profiling to identify and understand anomalies.
- Review TO cost data, conduct analysis with projections and update projected expenses and forecasting.

Required Qualifications and Skills:

Note: These are mandatory items that all candidates must have when making application to IMC for this position. Please ensure that your submission addresses each of these requirement items. Candidates without these required elements will not be considered.

- **All applicants must be US Citizens and have a current security clearance (NACLAC) eligibility day one and prior to entry on duty.**

Desired Qualifications and Skills:

It is desirable that the candidate has the following qualifications:

- ITIL Foundation-level certification.
- 7+ years of relevant experience performing financial analysis of TO, cost control, and reporting.

- A relevant educational degree in one of the following fields: Statistics, Business Administration, Finance, Accounting, Data Analytics, Mathematics.

*****This position is contingent upon IMC's award of the ARNG NCR DOIM IT Support Task Order now being competed under the GSA VETS 2 GWAC. *****
