IMC Wins Bid for Database and GIS Support for Transportation Agency

Dulles, VA – [Innovative Management Concepts, Inc. \(IMC\)](#), an information technology services and solutions provider, is pleased to announce that it has been awarded a five-year contract to provide Bridge Management, Bridge and Tunnel Inspection, and Road Inventory Database Administrators and Geographic Information Systems (GIS) Support for Department of Transportation, Federal Highway Administration’s Federal Lands Highway (FLH). The contract begins on 22 February 2017 and will continue into 2022.

IMC will assist FLH in Information Technology (IT) services, database administration and project management support for its: Bridge Management System, Bridge Inspection Program, Road Inventory Program, and for future development of Tunnel Management and Inspection systems. IMC will also provide support for the GIS Program within FLH’s Technical Services Section.

IMC is committed to supporting FHWA’s pursuit of its mission to improve mobility on our Nation's highways through national leadership, innovation, and program delivery through the continued provision of high-quality database and GIS support services.

###
