IMC Wins Bid to Continue IT Support for Federal Defense Agency

Dulles, VA – [Innovative Management Concepts, Inc. \(IMC\)](#), a systems engineering and information technology company, is pleased to announce that it has been awarded a three-year contract to provide Microsoft SharePoint Technical Subject Matter Expertise and Web Development Support for the Defense Security Cooperation Agency (DSCA). The contract began on 8 March 2016 and will continue into 2019.

IMC will assist DSCA in designing and customizing SharePoint solutions along with overseeing architectural design, integration of content management, portals, collaboration, business processes as well as assisting with troubleshooting and debugging SharePoint sites. IMC will also support DSCA through web page content and design, web analytics, and web development and maintenance.

IMC has been providing information technology support services to DSCA since 2009, including SharePoint and web development support, and will continue to provide these critical support functions to help DSCA pursue its mission to lead the Security Cooperation community in developing and executing innovative security cooperation solutions that support mutual U.S. and partner interests.
