## IMC Expands Capabilities in Federal Contracting Vehicle

Dulles, VA – [Innovative Management Concepts, Inc. \(IMC\)](#), a systems engineering and information technology company, recently expanded its participation in the [General Services Administration's Information Technology \(IT\) Services Schedule 70](#) program with the addition of 39 new labor categories, increasing its professional offerings from 9 to a new total of 48. This will allow IMC to offer a significantly broader range of IT services its Federal Government customers.

IMC's expanded IT Schedule 70 labor categories are directly linked to professional services that form the core of IMC's capabilities, including software development, software Independent Verification and Validation (IV&V), information security, IT project management, and IT support services/help desks.

GSA's IT Schedule 70 is an indefinite delivery indefinite quantity (IDIQ) multiple award schedule providing direct access to IT products and services from over 5,000 industry partners. Schedule 70 is the largest, most widely-used acquisition vehicle in the Federal Government; Schedule 70 industry partners offer a comprehensive array of IT products, services, and

solutions. To find out more, visit GSA's IT Schedule 70 website at

<http://www.gsa.gov/portal/content/104506>.

###
